The Department of Biological and Environmental Sciences at Capital University seeks a candidate to fill a term, Instructor-level teaching position. Candidates with a specialization within Microbiology are encouraged to apply. The position begins August 2015. Candidates with a Ph.D. at the time of appointment are preferred. The position has a 15-16 contact hour teaching responsibility per semester with no service or scholarship responsibilities.

The candidate should have a solid grounding in the biological sciences with the ability to relate microbiology to systems and organismal biology. Applicants should have a strong commitment to excellence in undergraduate teaching and be committed to liberal-arts education. Teaching responsibilities will likely include microbiology and immunology courses and associated laboratories for biology and nursing majors. Additional teaching responsibilities may include introductory and upper-level courses for science majors, as well as general education courses for non-science majors.

Capital University offers a rich benefits package that includes medical, dental, retirement, family education benefits, long-term disability, life insurance and free parking.

Application Process: Interested candidates should send 1) curriculum vitae, 2) unofficial transcripts, 3) three letters of reference, and 4) a statement of teaching experience and teaching philosophy.

Please submit all materials electronically to:
Dr. Christine Anderson, Search Committee Chair
canders2@capital.edu

Review of applications will begin March 6, 2015 and continue until the position is filled.
