I. Policy
The purpose of this policy is to promote the highest level of personal safety and security for our students, faculty, staff and guests and to safeguard their personal property and the property of Capital University.

This policy applies to all individuals who have been granted access to any university buildings, including visitors and guests.

II. Definitions
Academic Year: Fall and Spring Semesters

Access Point: The designated entrance to a building to be used after normal operating hours when buildings are secured (at least one per building); equipped with card access and camera monitoring.

Administration Buildings (Bexley Campus): These buildings include Yochum Hall, Admissions, and Facilities Management.

DPS: Department of Public Safety

Essential Personnel: All employees of Facilities Management, Food Services, Housekeeping, Public Safety and Residence Life. Department heads may choose to deem some individuals within their department as nonessential.

III. Policy Details
This policy defines normal working hours for specific University buildings. All buildings shall be locked outside of normal working hours to maximize the security of the buildings, occupants, and building contents.

The University President may declare an emergency due to other circumstances after which the access to a building could be denied. States of emergency may be declared by the president of the University, government officials of the City of Bexley, Franklin County or the State of Ohio.

Generally, academic and other campus facilities are open to students, employees and guests during normal business hours. As an independent institution, Capital University's campus is private property, and persons who do not have legitimate business on campus may be removed or arrested as trespassers. There is no formal policy requiring identification and admission of visitors on campus generally, although specific policies may govern access to particular buildings such as university residence halls and the Law School.
All buildings are equipped with call boxes located near entrances that enable anyone in need to call Public Safety. The boxes have signs with the phone number for Public Safety and the location of the box. The Department of Public Safety plays an important part in university decisions regarding facilities, landscaping and lighting. The university regularly updates the locking and door alarm systems for its buildings, and has instituted key card access to buildings.

In addition, the university has a weapons policy which generally prohibits individuals who are not university law enforcement officers (or law enforcement officers assisting university officers) from possessing, displaying, or using firearms, weapons, ammunition, or fireworks on campus at any time. All buildings have no weapons signs located at entrances.

**Bexley Campus**
Requests for exceptions to the operating hours referenced in this policy are to be submitted in writing to University Counsel or the Building Manager at least 48 hours in advance of the change. The approver will notify DPS. Requests should be carefully considered and authorized in light of, and evaluated for, critical needs due to programmatic needs, and medical, security, and fire safety concerns.

Individuals who have been issued University access cards or who are specifically authorized to use the facilities within a particular building may do so on an individual basis after the designated closing time without prior notification of DPS. Individuals with access cards who enter buildings after the designated closing time must accept the responsibility for immediately securing the door after entering and upon leaving the building. Such individuals should be prepared to provide DPS personnel with appropriate identification if requested.

Contractors must check in with the Office of Facilities Management for afterhours or weekend work, or with DPS if Facilities personnel are unavailable. Facilities Management will notify DPS in writing that such company will be on campus and to provide the contractor information (company name, contact information, where they will be working and schedule). Upon completion of the work, contractors are to sign out with Facilities Management.

University police may remove unauthorized persons from a building or take other action as may be appropriate if such persons do not have specific authorization to be in the building.

**Law School**
Outside established business hours, faculty staff and students must use their access ID to enter the building. Access is available at the main Broad Street entrance, the Broad Street entrance near the Legal Clinic, and at the Capital Street entrance.

Law School Security officers may remove unauthorized persons from the building.

Contractors working at the Law School for afterhours or weekend work, must check in with Security at the security desk at the Capital Street entrance, and with Law School facilities personnel. Upon completion of the work, contractors are to notify facilities personnel before leaving and sign out at the security desk.
IV. Procedures

Academic Buildings-Bexley Campus

Fall/Spring Semesters: Access is available from 7:00 am to 7:30 pm through most building doors, and from 7:30 pm to 10:00 pm through designated access points to the building.

Summer Semester: Access hours are reduced in the summer consistent with class meeting times and scheduled events or meetings.

Residence Halls

As the “home away from home” for students, Residence Halls provide all residents with a sense of privacy, security and community and these policies are based on the premise that residents share responsibility for their community’s security concerns.

Access:

Residence Hall card access is limited to building residents, and necessary Student Affairs, Facilities, and Public Safety personnel. Capital University students who are assigned housing on main campus will be issued an access card that allows them to open the outside door of their assigned residence building at all times during the academic year. Outside doors without a card reader are generally locked and are monitored for unauthorized entries. Students may not prop open exterior doors or provide access to the residence halls to persons who are not authorized to enter, and violators are subject to disciplinary action under the Student Code of Conduct. Each student room is equipped with standard door locks. Guests and visitors may only be permitted into the building where their host lives. All guests in residence halls must have a student host and are subject to university rules and policies. Hosts are responsible for the actions and damages caused by their guests. Lobby desks are staffed in the evening in each hall to assist with security-related concerns and to monitor and restrict building access only to residents and visitors escorted by residents, persons with a valid Capital ID, or persons recognized as authorized guests.

Residence Life Personnel:

The university has four Area Directors (ADs) who oversee the residence hall facilities. Student resident assistants (RAs) live on each floor section of every hall. These personnel receive basic training in security, crime prevention, and emergency procedures, assist in creating a safe and secure living environment and are instructed to call Public Safety or maintenance offices regarding any significant security or safety concerns. Monthly community meetings are held to review housing security rules, enforcement procedures and crime prevention. In addition, Residential Life is led by an Assistant Director and a Director of Residential and Commuter Life.

Fire Protection:

All residence halls are equipped with three fire protection systems: pull box alarms; zone smoke alarms in hallways, stairwells, storerooms; and smoke alarms in each student room. Fire extinguishers and other safety equipment are routinely inspected by university personnel and state and local authorities.
Call Boxes:
  All residence halls are equipped with call boxes located near entrances that enable anyone in need to call Public Safety. The boxes have signs with the phone number for Public Safety and the location of the box.

Residence Halls will be closed during holiday breaks and during the breaks between semesters. Capital University may provide residential accommodations during certain vacation periods to a limited number of students by prior arrangement through the Residence Life Office. Students remaining on campus between fall and spring semester will have 24-hour access, via their card, only to the residence to which they are assigned.

Meeting and Event Services will schedule the Residence Halls for summer events.

Information on Other Residential Facilities

  Capital Commons: This university-owned apartment complex, which houses approximately 92 students, became part of Capital's campus housing in 1998. Accordingly, Capital sponsors on-going programs and information on public safety-related issues, and provides information on personal safety such as information entitled “Keeping Yourself Safe” posted on the university’s Public Safety webpage at [http://www.capital.edu/campus-safety/](http://www.capital.edu/campus-safety/).

In order to comply with the Jeanne Clery Disclosure of Campus Security Policy and Campus Crime Statistics Act (Clery Act) and the Higher Education Opportunity Act (HEOA) the Director of Public Safety (DPS) will develop and administer the following programs.

- a. Security Awareness Programs for Students and Employees
- b. Crime Prevention Programs for Students and Employees

- d. Fire Safety Awareness Programs for Students and Employees

III. **Procedure**

a. **Security Awareness Programs for Students, Faculty and Staff**

During student orientation, students shall be informed of services offered by the university’s Department of Public Safety (DPS). The security awareness training materials will outline ways to maintain personal safety and residence hall security. New students, faculty and staff shall be provided information related to crime on-campus and in surrounding neighborhoods. Similar information shall be made available to existing students, faculty and staff. Security awareness materials and information will be offered to students, faculty, and staff on a continual basis via the University’s Safety Bulletin located at [http://www.capital.edu/safety-bulletin/](http://www.capital.edu/safety-bulletin/) as well as other means of communication.
b. **Crime Prevention Training and Awareness for Students, Faculty, Staff**

Periodically during the academic year, the Department of Public Safety (DPS), working in cooperation with other university organizations and departments, shall present crime prevention awareness sessions on such topics as active shooter incidents, sexual assault (rape and acquaintance rape), theft, and vandalism, personal safety, and others. New students, faculty and staff shall be provided information related to fire safety. Similar information shall be made available to existing students, faculty and staff. Fire Safety training and information will be offered to students, faculty, and staff on a regular basis through workshops/trainings, as well as other means of communication.

1) Fire safety protocols are maintained on the university’s website at: [http://www.capital.edu/emergency/](http://www.capital.edu/emergency/). In case of a fire, student and employees should follow the fire evacuation procedures, which are:

**Fire Evacuation Procedures**

A continuous emphasis is placed on fire prevention. However, when prevention fails, we must be prepared for evacuation to assure survival. A clear understanding of the characteristics of fire and smoke is essential for escape in a fire situation.
Take note that ceiling-level temperatures are hottest. Oxygen is burned at high levels first, so air is available on the floor. Smoke that is produced banks down to knee level and hovers there even in serious fires. If you remain in a prone position or crawl, you will likely be able to breath and even see across the floor to a fire exit or area of safety.

**Steps to Follow**

- **Before a fire occurs:**
  - Know at least two exits other than the elevators.
  - Know how to use a fire extinguisher.
  - Know the designated assembly area outside the building where your department or group will meet.
  - Know the location and operation of the fire alarm system.
- If you see an active fire, pull the nearest fire alarm as quickly as possible. If the fire alarm system fails, evacuate and call the Department of Public Safety (236-6666).
- If you hear the fire alarm system, evacuate the building immediately and proceed to designated assembly area outside the building.
- If you are in a room and a fire alarm sounds, feel the door from top to bottom for heat before opening.
- Brace yourself behind the door and open it slowly to determine if the environment is safe to exit.
- If it is safe, enter the hallway and make your way to the nearest exit. Do not use elevators.
- If it isn’t favorable for you to exit your room, pack your doorframe with wet towels, sheets, whatever you have to retard smoke from entering your room. Keep a towel to your face as well.
- Stay close to the floor. Proceed to your window and open.
- Let everyone within hearing distance know that you are trapped. Yell, wave a towel outside but most of all stay near the window.
- Stop, drop and roll, if your clothes catch fire.
- Use cool tap water immediately on burns. Don’t use ointment.
- Report any hazardous chemicals or materials that may be in a building that is on fire.
- Remain outside the building until an all-clear signal is given by Public Safety and Residence Life and Housing.

**IV. Responsibilities**

a. Capital University Department of Public Safety (DPS) to maintain updated Security, Crime Prevention programs and develop appropriate training materials.

b. Office of Student Affairs will coordinate training and information sessions with DPS for incoming and current students

c. Office of Human Resources will coordinate information sessions with DPS for all new and current employees

**V. Resources**

b. Higher Education Opportunity Act (HEOA)
I. Policy

Capital University is concerned about the safety and welfare of its students, faculty, staff and guests, and seeks to provide a safe campus environment. The university shall develop and maintain policies and procedures designed to enhance campus public safety and comply with the requirements of the federal Student Right to Know, Campus Security Act as well as the Clery Act through accurate reporting and dissemination of crime statistics for both the Bexley Campus and Law School campus.

II. Policy Details

In order to comply with the Student Right to Know, Campus Security Act and Jeanne Clery Disclosure of Campus Security Policy and Campus Crime Statistics Act (Clery Act) and the Higher Education Opportunity Act (HEOA) the university will develop and administer policy related to the following.

i. Preparation and Disclosure of Crime Statistics
ii. How to Report Criminal Offenses
iii. Voluntary Confidential Reporting
iv. Policy Regarding Counselors
v. Maintaining a Crime Log
vi. Maintaining a Fire Log
vii. Advising the University Community on Sex Offenders
viii. Disclosures to Victims of Crimes of Violence or Non-forcible Sex Offenses
ix. Definitions Used for Collecting Clery Crime Statistics

VI. Procedures

The University prepares an Annual Security Report to comply with the Jeanne Clery Disclosure of Campus Security Policy and Crime Statistics Act and the Higher Education Opportunity Act. The report is prepared in cooperation with the university’s Department of Public Safety, the Bexley Police Department, Columbus Police Department, University Counsel, the university’s Facilities Department, the Student Affairs division, and Law School administration. Each entity provides updated information on their training and awareness efforts and programs, and crime and fire statistics to comply with the Acts.

In addition to safety policies/procedures and awareness programs, information to be outlined in the Reports includes campus crime, arrest and referral statistics. These statistics include those incidents/crimes reported to the university’s Department of Public Safety, Student Affairs division (including the office of Residential and Commuter Life), Campus Security Authorities, and local law enforcement. Ohio law (ORC 2921.22.B) requires prompt,
mandatory reporting to the local law enforcement agency by health care practitioners (such as those at the University’s Center for Health and Wellness) when they provide medical services to a person they know or reasonably suspects is suffering from wounds inflicted by a firearm or is a result of an offense of violence. Health and Wellness counseling staff shall inform their clients of the procedures to report crime to the University Police on a voluntary or confidential basis in the event the staff member feels it is in the best interest of the client. Capital University shall make available a procedure to anonymously capture crime statistics disclosed confidentially during such a session.

A report for both the Bexley Campus and the Law School campus will be completed no later than October 1 for the previous calendar year. Each year the University shall send an e-mail notification to all students, faculty, and staff that provides access to the Annual Security Report. The report is also made available to students, faculty, staff and general public by annually posting the information on the University’s web site at http://www.capital.edu/security-reports/. Copies of the reports may be obtained at the Department of Public Safety office located at 661 College Avenue or by calling (614) 236-6011. Prospective employees and students may also obtain a copy of the report through the Department of Public Safety.

ii. How to Report Criminal Offenses

The University encourages the prompt reporting of criminal activities to the university’s Department of Public Safety or local law enforcement agencies by victims, witnesses, or others who have knowledge of a crime.

A report of criminal activity should contain sufficient information to provide reasonable grounds for the university to pursue an investigation, or to refer the matter to local authorities for investigation and prosecution. The university will investigate reports of criminal activity and will prosecute or further investigate reports of the crimes of murder, sexual assault, robbery, aggravated assault, burglary, motor vehicle theft, and arson, among others, as required by law.

Capital University Police, the Bexley Police Department and the Columbus Police Department have a mutual aid and working agreements. Each department augments the other within their jurisdictions during mutual investigations, arrest, and prosecutions. University Police personnel shall attend regular meetings with local law enforcement agencies to exchange ideas and problems which may be of concern for the University community. Local law enforcement can be reached for non-emergencies by calling the following non-emergency number:

- Bexley Police Department, 614-559-4444

When you activate an emergency phone please provide the following information:
- Your location
- The nature of the emergency
- Be prepared to respond to communications from the officer
Things to do when Reporting a Crime:

- Call Public Safety at 614-236-6666 and communicate details of the incident
- Provide the location of the incident
- Describe the suspect. Note the appearance, male/female, clothing, height, weight, ethnicity or race, scars, tattoos, and other noticeable features
- Describe vehicles involved, if any. Include make, model, color, license plate number, and direction of travel
- Do not put yourself in harm’s way.

If you observe a crime or suspicious incident, call immediately. Don’t assume that someone else has or will call. Try to provide as much accurate detailed information that you can. Try to stay as calm as possible. STAY ON THE LINE until the dispatcher says it is okay to hang up.

Calling when you see a crime or something suspicious can help prevent crime and harm.

iii. Voluntary Confidential Reporting

The University shall ensure a process is in place to allow victims or witnesses of a crime to make a confidential report on the incident, but not formally pursue the action within the University’s or local jurisdiction’s criminal justice system. With the victim’s permission, the Chief or a designee of Capital University Police may file a report on the details of the incident without revealing the victim’s identity. The purpose of a confidential report is to comply with the victim’s or witness’s wishes to keep the matter confidential, while taking steps to help ensure the future safety of the victim and others. With such information, the University can keep an accurate record of the number of incidents involving students, determine where there is a pattern of crime with regard to a particular location, method, or assailant, and alert the campus community to potential danger. Reports filed in this manner are counted and disclosed in the annual crimes statistics for the institution.

iv. Policy Statement Regarding Counselors: University Pastoral Counselors and Professional Counselors, when acting as such, are not considered to be Campus Security Authorities and are not required to report crimes. As a matter of policy, they are encouraged to report crimes by providing only aggregate information (no personally identifiable information) for inclusion into the annual crime statistics.

v. Maintaining a Crime Log

Both the Bexley and Law School campuses will maintain Crime Logs. The Bexley log will be kept at the Department of Public Safety. The Law School log will be kept at the Security Guard desk at the Capital Street entrance.

The Crime Log will include:

- The nature, date, time and general location of each crime
- The disposition of the complaint, if known
Entries to the logs will be made within two business day of the report of the information to DPS or Law School security, unless the disclosure in the log is prohibited by law or would jeopardize the confidentiality of the victim.

The university does not typically, but may withhold information from the Crime Logs if there is clear and convincing evidence that the release of the information would:

- Jeopardize an ongoing criminal investigation or the safety of an individual
- Cause a suspect to flee or evade detection
- Result in the destruction of evidence

If information is withheld, the university will disclose that information once the adverse effect that caused the information to be withheld is no longer likely to occur.

The Crime Logs for the most recent 60-day period will be kept available at each campus to be open to public inspection during normal business hours. Any portion of the log older than 60 days will be made available within two business days of a request for public inspection.

vi. Maintaining a Fire Log
The Bexley Campus maintains on-campus student housing and therefore maintains a Fire Log at the Department of Public Safety which records any fire that occurs in an on-campus student housing facility.

The Fire Log includes: the nature, date, time and general location of each fire. Entries to the Fire Log will be made within two business day of the report of the information to DPS.

The Fire Log for the most recent 60-day period will be kept available at DPS to be open to public inspection during normal business hours. Any portion of the log older than 60 days will be made available within two business days of a request for public inspection.

All students and employees are expected to report any on-campus fires to the Department of Public Safety (614-236-6666) immediately. Such reports enhance campus safety through the ability of DPS to act as first responders. These reports will also be used to include a fire in the statistics report in the university’s annual fire safety report.

vii. Advising the University Community about Sex Offenders
Federal law requires universities to issue a statement advising the university community where law enforcement information provided by the state in which the institution is located concerning registered sex offenders may be obtained. It also requires sex offenders already required to register in the state to provide notice of each institution of higher education in that state at which the person is employed, carries a vocation, or is a student.

In compliance with requirements to advise the university community on how to access information on sex offenders, the Capital University Department of Public Safety provides links to electronic Sex Offender Registry and Notification (eSORN) sites maintained by the Ohio Attorney General and the Franklin County, Ohio, Sheriff’s Office. This information will also be provided in the Annual Security Reports of the university.

Ohio Attorney General site located at: www.communitynotification.com/cap_main.php?office=55149
viii. **Disclosures to Victims of Crimes of Violence or Non-forcible Sex Offenses**

Capital University will, upon written request, disclose to the victim of a crime of violence, or a non-forcible sex offense, the results of any disciplinary hearing conducted by the university against the student who is the alleged perpetrator of the crime or offense. If the victim is deceased as a result of the crime or offense, Capital University will provide the results of the disciplinary hearing to the victim’s next of kin, if so requested.

I. Policy

Capital University is committed to maintaining a safe and secure campus environment. In order to be proactive, the University is committed to providing emergency notifications of significant emergencies or dangerous situations and timely warnings of crimes that may present a serious or ongoing threat to the campus community. The emergency notifications/timely warnings will be given to students, faculty and staff to heighten safety awareness.

II. Policy Details

In order to comply with the Jeanne Clery Disclosure of Campus Security Policy and Campus Crime Statistics Act (Clery Act) and the Higher Education Opportunity Act (HEOA) the University’s Department of Public Safety (DPS) develops and administers policy related to Emergency Notifications and Timely Warnings.

III. Procedures for Issuing Emergency Notifications or Timely Warnings

Anyone with information warranting an Emergency Notification/Timely Warning should report the circumstances to the Capital University Department of Public Safety at (614)-236-6666 or in person at the dispatch desk within Public Safety, located at 661 College Avenue, Bexley, Ohio.

A. Emergency Notification

1. The Department of Public Safety receives information from various offices on campus – such as Facilities, Student Affairs, Center for Health and Wellness – and from local law enforcement agencies. **The Police Chief or a designee uses his/her professional judgment to review the information received and confirm that there is a significant emergency or dangerous situation involving an immediate threat to the health or safety of students or employees on campus. Once confirmed, DPS shall issue an emergency notification to the campus community.**
   a. An “immediate” threat as used here encompasses an imminent or impending threat, such as but not limited to a fire, approaching tornado, hurricane or other extreme weather conditions, earthquake, gas leak, terrorist incident, armed intruder, bomb threat, civil unrest or rioting, explosion, etc.
   b. The Police Chief may consult as appropriate with other agencies – such as Bexley Police, Columbus Police or Fire, Homeland Security, National Weather Service, FBI, etc. – to confirm a significant emergency or dangerous situation for the campus.

2. The Police Chief or a designee, without delay and taking into account the safety of the community and the content of the notification, will issue the emergency notification.
   a. The DPS dispatch center may issue emergency notifications related to imminent threats and extreme weather directly upon confirmation of the event or threat.
b. DPS may collaborate with the Director of Communication to determine the content of the notification.

c. Generally, the entire university community will be notified so that all members have information relevant to their safety; unless the emergency is so contained that only a segment of the community should be notified.

3. The Emergency Notification will be issued through one or more of the following:
   a. CapAlert – an emergency notification system that provides notification of an emergency on campus by sending a text message to Short Message Service (SMS) devices (Ex: cell phone, pager, etc.) and/or e-mail accounts
   b. Email notification – all university email accounts are enrolled in the emergency notification system
   c. The campus safety bulletin at www.capital.edu/safety-bulletin
   d. University Facebook and Twitter accounts
   e. Alertus – notification on university computer
   f. Big Voice - a commercial public address system installed on a central campus building, which allows the broadcast of prerecorded or live messages and announcements. The system is designed to be clearly heard throughout the campus grounds
   g. Capital web site—www.capital.edu; or the emergency page — www.capital.edu/emergency

4. A notification may not be issued if in the judgment of first responders (including but not limited to DPS, Bexley Police, and Columbus Police) a notification would compromise the efforts to assist a victim or to contain, respond to, or otherwise mitigate the emergency.

B. Timely Warnings

1. Timely Warnings are provided to give students, faculty and staff notification of crimes occurring on campus property, non-campus property, or on public property immediately adjacent to and accessible from campus and that are considered by the university to represent a serious or ongoing threat to the safety of students, faculty and staff.
   a. The crimes to be included for Timely Warnings are all Clery Act offenses: criminal homicide, sex offenses (including rape, fondling, incest, statutory rape), robbery, aggravated assault, burglary, motor vehicle theft, arson, hate crimes, dating violence, domestic violence, stalking, and arrests and referrals for disciplinary actions for liquor law violations, drug law violations, and illegal weapons possession. These offenses will result in a Timely Warning if they are determined by the university to represent a serious or ongoing threat to the safety of students and employees.

2. The Police Chief or a designee is responsible for preparing the Timely Warning when a crime is reported to or brought to the attention of DPS and that crime represents a continuing threat to the safety of students and employees.
   a. Information for a Timely Warning may also come from other law enforcement agencies or other offices, including Campus Security Authorities.
b. The university’s Communication office may assist in developing the content of
the notification and in distributing the Timely Warning.

3. Every attempt will be made to distribute the warning as soon as possible after an
incident(s) is reported. The release will occur after a determination is made that the
crime(s) represents a continuing threat to students and employees and is subject to
the availability of accurate facts concerning the incident(s).

4. Information about criminal incidents is reviewed on a case-by-case basis to
determine whether those incidents represent a serious or continuing threat to
students and employees. Incidents will be reviewed based on the nature of the
crime, the facts of the case and the information known to DPS. DPS may, within its
discretion, consult with appropriate individuals or offices to determine whether an
incident represents a serious or continuing threat or to determine the appropriate
content of a Timely Warning notice.

5. Information to be included in Timely Warnings:
   a. A succinct statement of the incident.
   b. Possible connection to previous incidents, if applicable.
   c. Physical description of the suspect, if available.
   d. Photo or composite drawing of the suspect, if available.
   e. Other relevant and important information about the crime.
   f. Information on whom to contact about the investigation.
   g. Appropriate safety tips.

6. DPS may not include some information in a Timely Warning if providing that
information could risk compromising law enforcement efforts. Also, updates may
be sent out if new or more accurate information becomes available.

7. DPS withholds as confidential the names and other identifying information of
victims and does not include this information in Timely Warnings.

8. The Timely Warning will be issued through one or more of the following:
   a. CapAlert – an emergency notification system that provides notification of an
      emergency on campus by sending a text message to Short Message Service
      (SMS) devices (Ex: cell phone, pager, etc.) and/or e-mail accounts
   b. Email notification – all university email accounts are enrolled in the emergency
      notification system
   c. The campus safety bulletin at www.capital.edu/safety-bulletin
   d. University Facebook and Twitter accounts
   e. Alertus – notification on university computer
   f. Big Voice - a commercial public address system installed on a central campus
      building, which allows the broadcast of prerecorded or live messages and
      announcements. The system is designed to be clearly heard throughout the
      campus grounds
   g. Capital web site—www.capital.edu; or the emergency page —
      www.capital.edu/emergency
DPS does not issue an Emergency Notifications or Timely Warnings for any of the following:

- Law enforcement apprehends the subject(s) and the threat of imminent danger for members of the Capital University community has been mitigated by the apprehension prior to issuing a Notification.

- If a crime report was not filed with DPS or if DPS was not notified of the crime in a manner that would allow the department to post a Timely Warning for the community, e.g. DPS receives information of the crime after it no longer presents a serious or continuing threat to students or employees. This type of situation will be evaluated on a case-by-case basis.

IV. Responsibilities

1. The University Police Chief will ensure a process is in place to receive information and disseminate Emergency Notifications/ Timely Warnings in compliance with this policy.

2. The Communication office will assist in developing dissemination materials where appropriate.

V. Resources

2. Higher Education Opportunity Act (HEOA)
I. Policy

It's impossible to anticipate every critical incident or emergency that can occur on a college campus, however, Capital University recognizes the potential exists for a critical incident or emergency. In order to effectively prepare for, respond to and recover from those events, whether natural or man-made, the university will establish emergency preparedness plans as well as routinely test and exercise the preparedness plans.

II. Definitions

1. Critical Incident, Crisis or Emergency: A sudden, unforeseen occurrence of a serious and urgent nature that requires immediate action to protect lives and/or property associated with Capital University. It has the potential to cause significant injury or death, or to shut down the university, disrupt operations, cause physical or environmental damage, or threaten Capital's reputation or financial standing.

III. Policy Details

In order to comply with the Student Right to Know, Campus Security Act and Jeanne Clery Disclosure of Campus Security Policy and Campus Crime Statistics Act (Clery Act) and the Higher Education Opportunity Act (HEOA) the Director of Public Safety (DPS) along with the Office of Facility management will develop and administer a policy related to Emergency Preparedness Protocols. This includes establishment of a Critical Incident Response Team, formalizing drills/exercises (evacuation, shelter-in-place, lock-down, etc.), drafting of Emergency Operations Plans, Emergency Response Guides, and other emergency preparedness protocols.

It is impossible to anticipate every emergency that can occur on a college campus. Therefore, the university has developed protocols that represent, in some detail, emergencies that might arise and steps that students, faculty or staff should take in encountering and/or reporting a critical incident. The actual circumstances — the nature, scope and duration of the incident — will determine the appropriate response. Each protocol is designed with two goals in mind:

- to ensure the health, safety and security of the campus community
- to minimize damage to university property

The university emergency response protocols and procedures are described and available on the university website at: http://www.capital.edu/emergency/, including procedures for general emergencies as well as specific types of incidents such as utility outages,
tornado/severe weather, fire, flooding, gas leaks, hazardous materials, bomb threats, lockdowns, evacuations, and pandemics.

In addition, the university has an “Emergency Operations Plan (EOP)” to guide the management of a critical incident or emergency. The university’s Police Chief serves as the Incident Commander. In the event of an emergency, the Police Chief will serve as the first point of contact. The Police Chief will determine the emergency level and will communicate to the appropriate individuals. In the event that the Police Chief is not on duty, the officer on duty or the dispatcher will assume responsibility for contacting the Police Chief.

All University incidents/emergencies should be immediately reported to Public Safety at 614.236.6666. Counseling situations will be handled on a case-by-case basis due to the issue of confidentiality. Emergencies can also be dialed through the 9-1-1 system.

Since emergencies do not always abide by normal business hours, it is understood that the Department of Public Safety or Facilities Management will make every attempt to contact the resources and assets necessary to mitigate an emergency or critical incident.

IV. Procedures
a. Critical Incident Management Team
The University shall establish a Critical Incident Management Team (CIMT) which is comprised of University leaders that the President of the University shall collaborate with to manage the consequences of the emergency or crisis. This group shall make the critical decisions to manage the crisis or emergency. The CIMT shall also have the responsibility for the release of information regarding the incident to the media. The CIMT shall participate in regular training.

The University’s Critical Incident Management Team is made up of the following:
   1) Incident Commander: Police Chief
   2) Emergency Operations Center (EOC):
      EOC Manager
      Public Information Officer (PIO)
      Liaison Officer
      Operations Section Chief
      Logistics Section Chief
      Planning section Chief
      Finance/Admin Section Chief
   3) Executive Policy Group:
      President
      Provost, Vice President for Academic and Student Affairs
      Vice President for Business and Finance
      Vice President for Strategic Enrollment Management
      Vice President for Advancement
      University Counsel
      Dean of the Law School
For incidents contained to the Law School, members of the law school administration may participate as part of the university’s EOC to respond to the incident. The Law School administrators include:

- Dean
- Associate Dean
- Assistant Dean of Student Administration
- Associate Director of Business Services

b. Emergency Operations Plan

The University maintains an Emergency Operations Plan (EOP) which shall define roles and responsibilities for preparing for, responding to and recovering from a crisis/emergency. The EOP shall define the levels of an emergency, the procedures/steps to be followed in an emergency, the roles of each of the Crisis Management Team members, and communications plans. The Plan shall be made available to CIMT members and appropriate crisis response partners. The CIMT shall review the Plan on a regular basis.

c. Emergency Response Guides

The University maintains an Emergency Response Guide (ERG). The ERGs (flipcharts) shall be made available to students, faculty, staff and visitors. ERG shall provide appropriate information to allow individuals to understand what to do in the event of a specific incident (tornado, fire, active shooter, chemical spill, etc.). ERGs shall be customized to the Main Campus, Law School and other locations as appropriate. ERGs shall be made available to personnel in hard copy format by posting the ERGs in all buildings (common areas, hallways, classrooms, stairwells, shelter areas, etc.). The ERG shall also be posted on the Capital University website at www.capital.edu/emergency. The Police Chief shall coordinate the regular review and updating of the ERGs.

d. Tests, Trainings and Exercises

The University will regularly provide tests, trainings and exercises on emergency procedures and protocols.

1. Tests

At least once annually, the University – through workshops, drills, tabletop exercises, and/or functional exercises – will test the emergency response and evacuation procedures. Tests of the emergency response plan may be announced or unannounced prior to occurring. For at least one test per calendar year, the university will publicize its emergency response and evacuation procedures in conjunction with the test to enhance the training and information available to the university community. The Department of Public Safety will maintain documentation of each test. The documentation will contain a description of the exercise, the date and time of the test, and whether the test was announced or unannounced. The University will generate improvement plans as part of its drills and exercises. The University will formalize a method in which improvement items are incorporated into policies, procedures and operations and appropriate updates are tracked and distributed.

- Building and Campus Evacuation procedures will be posted online at www.capital.edu/emergency.
2. **Drills (evacuation, shelter-in-place, duck and cover, etc.)**
   The purpose of a drill is to prepare participants for an organized action in case of an emergency. Drills are also used as a way to educate and train occupants on issues specific to their building. During the drill, occupants should familiarize themselves with the location of exits, the sound of the fire or severe weather alarms, shelter locations, and evacuation routes. The University shall use drills to test the operation of life safety and notification system components.

   Drills shall be monitored by the Department of Public Safety and Office of Facility Management to evaluate egress, sheltering location occupancy levels, and behavioral patterns.
